FARMERS GIN HAD SMALL FIRE TUESDAY

Fire of unknown origin got a nice start on the Farmers Gin early Tuesday morning. It was discovered about 6:00 A. M. by someone passing and the fire boys got there pronto and checked what would have been extensive loss.

The fire started near the press and we learn the damage was not so heavy.

The alarm was turned in again this week to go to the City Cleaners Tailor Shop, where escaping oil seemed to persist in catching on fire. Slight damage resulted.

BOWMAN SHOP HAS MODERN MACHINES

Years ago there appeared in Hamlin a timid man by the name of J. B. Bowman. Mr. Bowman set up a very modest little shop and for a long time got but a small amount of work. Finally one day he appeared at the Herald Office and ask about what we would suggest as the best and cheapest way to get some business.

We told Mr. Bowman that if he would let the people know he was in town, that you can do satisfactory work and stay on the job, work hard and long, then there is no doubt but that you will do well.

Bowman says, "I will try your suggestion." So we started him a small card to appear each week. He talked his business in the Herald. Bowman kept advertising and new and satisfied customers kept growing in numbers. Mr. Bowman has a good home, a dandy shop, and several grown children, one a graduate of the High School.

This week we were about the shop and found Mr. Bowman just grinning like, well, like . . . anyway we ask what it was all about. He says, "look here at my shiny new machinery. There stood one of the latest American Sole Stitchers, a hot wax machine and a Shoe Finisher, all with a lot of new-fangled gadgets about them.

A few months ago a fire disturbed Mr. Bowman and he is just getting really straightened out once more. He has proven that constant attention and dependability is a good bank account in Hamlin and Hamlin's wide trade territory.

IT IS NOT A HANGAR NOT A ROUND HOUSE JUST A WAREHOUSE

Say, folks that thing you have been seeing over in the side of the Day farm, in the edge of Hamlin on the south is not an airdrome, not a beer joint, and neither is it a "round house" or road house.

It is a Half-circle Cotton Warehouse. Just why it is built that way, we have not learned. But maybe it is to prove that a farm plant can build a spacious warehouse without covering all the field. You see, the bales of cotton can be stacked very high, maybe 20 feet up and the slanting rafters do not stop the stacking. Anyway over in the Day field is a very unique building, one that splits every drop of water, so that part of it will run two ways and quickly. Not a drop can be caught for it starts at once for the ground and when it quits running it is on the dirt.

Can't tell what all John Ed Day will put in that "queer shanty of iron" before the next depression starts.

Mrs. E. T. McGee, of Dallas, has been a guest for two weeks in the home of her daughter, Mrs. Burns Eakin and family, while looking after business interests here. Mrs. McGee owns a nice residence in east Hamlin on the Stamford highway and she is making some extensive improvements on this property. The house will be converted into a duplex with modern conveniences and private bath for each apartment. The inside will be newly finished and papered, and the outside will be newly painted, improving greatly the convenience and appearance of the place.

EDDIE'S BAKERY KEEPS GOING AHEAD WITH NEW MACHINES

It has not been many years since Eddie Jay acquired the bakery in Hamlin. There has been few days since he came here but that he has been personally on the job and striving and asking for business . . . that's what counts too.

Eddie Jay is the type of aggressive, progressive business man that counts in a community. If his community wants service . . . then service it shall be. If his community desires more bread and better cookies then more eats he is determined to supply. In other words Eddie Jay realizes he has a niche in Hamlin's life to fill and all he wants is a chance to let the people have what they want and the kind they want.

Lately we observed Eddie frisking around in a brand new spick and modern delivery truck. This is about the second or third one he has owned since coming here a short two or three years ago. In fact the method of delivery and the manner of protection has everything to do with the way one relishes the food. So nothing will satisfy like the best.

This week Ye Herald snooper poked himself into the machinery end of Eddie's Bakery. Nobody got us by the snoot and pulled us in either. And nobody is paying for this telling on Eddie either. All of this is to create the proper impression that you have right here in Hamlin something as good, or maybe better, than some other places, and that Hamlin is as good a place to make a good thing go as almost anywhere in the state. Believe it or not.

Eddie Jay has lots of new things besides a delivery truck. Back in the shop we found a new hum-dinger High Speed Dough Mixer, a peach of a thing too. Then we noticed a New Modern Bread Moulder, and all the bakers rushing about in the pink of shape and spirits doing a good piece of work. Right away, too, these Eddie Bakers will be wearing some new uniforms that will look like new flour.

Eddie tells us that in a short while he is going to do some improvements on the front of his bakery . . . rearrange the whole thing. Lately he has been bothered with lots of "smellers" along about 5:30 or 6 P. M. when he begins to pull out those delicious "Hot things" which create that hungry feeling up and down the street. Eddie says the boys can "sniff" the hot things a block away, and how they do eat 'em. So it becomes necessary for the front to be fixed so that a rush can be handled easily and at the same time let the "sweet odors" get out to bring the folks around. Can a community have anything better than a well equipped, nice clean bakery? Nope, and Eddie has got it.

JESS YOUNG GETS NEW EQUIPMENT IN HIS TAILOR SHOP

The Herald is more than glad to see progress, and these days progress is possible only with the latest "models."

Should you step back into the machinery rooms of the Jess Young Tailoring Shop, that thing catching your eye is not a new-fangled music box but one of the latest of late New Tailor Shop Boilers. It's a pretty piece of furniture and the thing acts like it had life, and did not need anybody to manipulate it. There is a gadget for everything and right by its side stands a water softener. Think of soft water! It's some dinctum to convert Hamlin water into soft innocent stuff for the boiler.

You know folks, a tailoring shop is far more interesting than most of you think. It has more machinery than you would expect and far more costly too. Any young couple, and even the old couples of anybody's town always feel happy over "stepping out" with something that tends to carry one along. Glad to see Jess and Naomi getting fixed better and better.

Chamber of Commerce Tickets a Sell Out

IMPROVING FRONT OF HASSEN STORE

Modern fronts to any store are more than worth the cost. And Hamlin is getting nearly all of her store fronts modernized, these days.

We notice the fronts of the Waggoner Drug Store is finished this week and that the Hassen Store is being dressed out with new "footing." This Hassen store is in the Day Building and the finish is to harmonize with the Hardware front. Aall making an attractive appearance.

GIRL SHY TO BE FEBRUARY 18

The Junior Class of the High School announces the presentation of the annual class play in the High School Auditorium, Friday, February 18, 7:45 p. m.

The three act comedy, "Girl Shy," presents an ultra-modern picture of life on a college campus. "Girl Shy" has an interesting plot, clever dialogue, and plenty of laughs for every one. It is being produced by special arrangement with The Dramatic Publishing Company, of Chicago, Illinois.

The cast of characters includes: Pat Coles, as Tom Arsdale, who is girl shy; Dean Redus, as Oke Stinson who isn't girl shy; Dorothy Gardner, as Caroline, Tom's aunt; Eral Ray, as Anthony Arsdale, Tom's father; Mary Elizabeth Tindal, as Sylvia Webster, Tom's pet aversion; Cecil Sellers, as Dean Marlowe, dean of the college; Rosemary Carlton, as Peaches Carter, Oke's present weakness; Lola Fannin, as Asma, a colored "wash lady"; Wanda Sebastian, as Birdie La Verne, a movie aspirant; Clara Louise Shelburn, as Barbara (Babs) Sanford, a sophisticated young "modern"; John Scarborough, as Alford Tennyson Murgatoyd, the college poet; and George Dean, as Chuck Mayo, Birdie's "ex-steady."

Loleta Ubben is the stage manager. The play is under the direction of the class sponsor, Miss Doris Pope.

Attractive and entertaining specialty numbers of tap, songs and tumbling will be featured between acts.

Admission will be 15c and 25c

W. E. Dunnam is to be admired for his determination to stay in the grocery business, since his fire a few weeks ago. He first used an outdoor space in the Medford corner and last week-end he started the erection of an "open house" at the T. P. Station on the corner of Central Avenue and the 5th Street (Rotan road). He has an attractive looking place up there and should do a lot of good business. He is operating the service station in connection with his grocery stand.

* Cars may be built for speed, but roads are not.

Earl Smith, Chairman of the ticket selling committee, with his members went into action, Monday and up to noon Wednesday counting the number of complimentary tickets sent out to other towns and individuals the number had passed the 150 mark, which sets a record for number of tickets sold for a Chamber of Commerce Banquet here for a number of years.

A letter to the Secretary from the Hon. Wm. McCraw says he is looking forward with pleasure to his meeting with us.

Roy McCurdy, chairman of the program committee, announces the program is complete, and that a number of copies will be printed and placed at each plate.

ATTEND BANQUET AT ABILENE

The following named attended the Annual Chamber of Commerce Banquet at Abilene, Tuesday night of this week: W. C. Russell, Mac Brundage, Arlie Cassle, W. A. Albritton, and W. E. Benson.

W. E. BENSON, Sec'y.

The Herald learns that B. Hassen is resting well in the hospital in Muskogee. He would like to hear from his Hamlin friends, and so Basher, from this week on as long as you are in the hospital, The Herald will be mailed to you, gratis. Hope it will bring a few grins on your face and help pass away just a few minutes of each week, while you "wait."

Mrs. Effie Herring, and Laurence and Merrill, and little Miss Dorothy of Winters came Sunday to visit her daughter, Mrs. Tom Carter and the old home place at Hitson. Mrs. Herring has eight good oil wells on her Hitson farm.

What Dr. Scholl's Foot Comfort Service Means to You

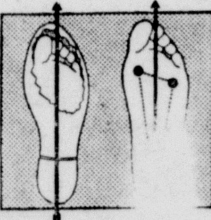

Wm. M. Scholl
M.D., D.S.C.

More than 30 years ago Dr. Scholl began an intensive study of the feet—the causes of foot troubles, how to detect them and how to provide immediate relief. Today his fame as a noted foot authority has spread to every civilized country.

During these years of laboratory and clinical study he has produced a Dr. Scholl Foot Comfort Appliance or Remedy for every common foot trouble such as weak, broken-down arches, rheumatic-like pains in the feet and legs, tired, aching feet, corns, callouses, bunions and "Athlete's Foot".

WAR NOT MENTIONED!

The other day we picked up an evening paper and not one single word did we find about WAR. Not a battle mentioned, no bombings, no horrors. It hardly sounded like 1938. Looks like we might have been on the edge of the millenium.

FOR DOGS

The people of Taylor County paid \$600.00 to find out how much they appreciated dogs. Every box in the County voted for the dogs except one and it had only 8 votes. This is a good lesson for other Counties to heed. Don't try to pull anything like that on man's best true friend.

SHEEP-COYOTES AND DOGS DON'T GROW IN THE SAME PASTURE

Out of the wide circle of territory in a County there may be a few "sheep-killing dogs," large hound-like fellows that prowl about at night. Also there may be a few coyotes to steal a march on the sheep. But out of the hundreds of small dogs, pets of little boys and some men and women there is little danger to the stockman.

Wednesday the Spencer Lumber Yard in Hamlin was closed for the funeral of Mrs. R. B. Spencer who died Monday at her home in Waco. Mrs. Spencer was a trustee of Baylor University and during her long life in Waco was prominent in Civic and Educational work. Her husband passed away a few years ago.

JOKE ON GARRETT

Papers will make mistakes. For example in the Washington Evening Star, of last week, a very attractive picture appeared showing our Texas Congressman, Clyde L. Garrett, lawyer, as one of the leading men with two very beautiful Washington women appointed to lead the G. O. P. out of its bog. Think of a big mistake like that and maybe you will not be so hard on a small paper like the Herald for getting a wee error occasionally. The Star is very repentant over the matter and hastened a two column illustration of all the parties and the cause for the mistake by special delivery mail to the various papers of this district. Now to the Star, the Herald would say, that nobody in Texas would ever suspicion that Clyde L. Garrett would get mixed up in a bunch of Republicans, no matter how good looking they may be. Besides down here in Texas, perhaps not a voter ever reads the Star. We all thank the Star for its efforts to correct the error. And the error came about because in that paper's "morgue" they had mats for the picture of two men by the name of Garrett—one a good Democrat and the other a good Republican. Just the wrong mat picked up, that's all. Yes, the Star says they all think highly of our Mr. Garrett in Washington. O. K. Mr. Manager of the Star, the big hearts of West Texas people are generous and forgiving. No harm done.

ELEMENTARY P. T. A.

The elementary Parent-Teacher Association met Friday, February 4, at three-thirty. During the business session the nominating committee was elected to nominate candidates for the offices of the association for the coming year. This committee is composed of Mrs. Joe Culbertson, Miss Kathryn Adkins, Mrs. Bill Runtree.

An announcement regarding the district meeting for the year was made and the place designated as Floydada.

Mrs. Ira Clements was in charge of the program. A Founder's Day program was given. Mrs. Wells, Mrs. Gardner, Mrs. Ralph Andrus, Mrs. Tom Shelbourne, Mrs. J. L. Beard, Mrs. W. C. Harrison, Mrs. Joe Culbertson, Mrs. Bert Fuller and Mrs. Joe Hudson participated in the program. A featured part of the program was the presentation of the birthday cake to our president, Mrs. Q. Martin.

In the count of room votes, Mr. Hastings won the prize for having the most room mothers present.

There was a social meeting after the regular meeting. Fruit punch and cookies were served to about 60 guests.

KNOW TEXAS

By F. L. McDONALD, T. S. C. W.
NEWS BUREAU, DENTON

Wisely changing sentiment now allows the staggering figures on venereal diseases to be published, and along with the other states in the union Texas is getting its eyes opened to the need for a concentrated fight against this danger.

Not only do gonorrhea and syphilis disable more than a half million people in the United States each year, but in Texas alone there are around 50,000 victims annually, according to figures supplied by G. W. Cox, state health officer, in the January issue of the "Texas Planning Bulletin."

Ranking with cancer, tuberculosis and pneumonia as one of the four great killing diseases, these cases are a hundred times more numerous than infantile paralysis.

Three thousand miles of large irrigation canals are located in the Lower Rio Grande Valley, a section of four counties which covers about 3,000 square miles. Tabulations in the Mission Times show that 700,000 acre feet of water, meaning enough to cover 700,000 acres with one foot of water, are pumped annually from the Rio Grande for irrigation purposes. The cost of this irrigation is from \$1 to \$10 per acre, depending on the amount used.

The Approach of Spring Prompts Facts About Lakeview Golf Club

Since the re-organization of the club in February, 1936, it has shown wonderful progress.

The course is a nine-hole layout on the south side of the city lake. It has plenty of trees, and no rocks which is a rare thing for a golf course in West Texas. The club is very active with a very loyal group of members who have spent several thousand dollars on the course and improvements since it was built, when the old Plasterco course was abandoned. They have paid up all old indebtedness of that club as well as this one.

The club has entertained more out-of-town visitors than any other local club, and is the only year round recreation place in this community.

The club keeps a man the year round to maintain the course and collect greens fee. He is furnished with a nice home and a good cistern of water, which are on the course.

Last year the club built a new office and caddy house combination. The club is in fine financial shape, being one of the few clubs in smaller towns that does not have a big indebtedness or at least some indebtedness. It has a cash balance in the bank.

Everyone is welcome to play the course by paying a 50c greens fee. But the club requests that all players, non-members and members whose dues are delinquent must pay in advance before they play as this saves embarrassment on the part of Mr. Jerry Stone the club's course manager.

OLD TIMER TELEGRAPHER STOPPED OFF IN HAMLIN

Tuesday afternoon while prowling about the streets, Ye Editor saw a face and a smile that looked like days of long ago. We stepped up and stuck out a hand to our old friend and former neighbor C. P. Hayden. Think of it . . . 18 years ago C. P. left Hamlin and not since then has he seen this good little city where he received and sent messages for Hamlin for 20 years. They are living in Houston and he reports Mrs. Hayden getting along nicely. Mr. Hayden says things have changed so much and especially the faces on the streets till he feels like a stranger. But as the hours passed, he picked up one here and there that made him feel like he really was back in little 'ole friendly Hamlin. He was passing through his old home town and stopped for a short visit.

Interscholastic League Meet to Be March 18-19

HAMLIN HIGH SCHOOL WILL TAKE AN ACTIVE PART IN ALL EVENTS

In the county executive meeting held in Anson January 20, the Interscholastic League meet was scheduled to be held in that city March 18 and 19. Other league events are to begin as early as February 4.

The committee ruled that the rules of the International League bulletin will be followed in playground ball in order that there may be no confusion in this event. Debate will be run off in the form of a tournament instead of the usual round robin schedule. Senior basketball for girls in class A and B schools will be played off in a tournament at Lueders February 11 and 12. The Hamlin girls, of course, will be favorites in this tournament. Grammar school basketball teams will decide their championship in a tournament at Avoca February 18 and 19. This will be for both boys' and girls' teams.

Junior high school basketball teams will play for their county championship at Hawley.

Rural schools will meet in a tournament in Anson, February 11 and 12, to decide the championship in their division.

Volley ball will be held at Anson on the afternoon of March 25 and all day Saturday, March 26. Playground ball will also be held at Anson, March 26.

METHODIST CHURCH

Sunday School at 9:45 a. m. Ray Willingham Jr., Supt. Let every teacher strive earnestly to get each one to attend their class that should. Our leaders are urging us to increase our Sunday School attendance. I know each of you have your own task, and the Sunday School pays you no cash. Yet I am sure you will agree with me that no work we do will pay more in the long run, than the time we spend in working to help people to do the will of God. So, as your pastor, I urge each of you to read carefully the literature I have recently placed in your hands. Then pray earnestly and ask God to help you to reach all the pupils you should and lead each one into vital relationship with the Lord.

Preaching at 11. Dr. Thomas W. Brabham, president of McMurry College, will preach at this hour. I consider Dr. Brabham one of the best friends I have. He is an able speaker. He has rendered our church a very valuable service during the last seven years. He saved old Polytechnic College, now T. W. C., to our church. The trustees had announced through the Star-Telegram that they would close its doors and try to sell it to the city of Fort Worth. Dr. Brabham, because of his love for Christian education, volunteered

his services. And we had the institution's fine, excellent shape that the college on new life and is now doing of the best work it has ever done. He has done a monumental work at McMurry College. I know of no man who will go further to help young life than Dr. Thomas W. Brabham. It is indeed a treat to have him come our way.

The leagues meet at 6:30.

Preaching at 7:30. Subject, "The Measure of Goodness."

Remember, you are always welcome to worship with us.

H. W. HANKS, Pastor

MOVING TO BRECKENRIDGE FARM

Wednesday of this week Mr. and Mrs. Ross Walker moved from the headquarters of the T-Diamond Ranch north of Hamlin to their farm near Breckenridge.

In conversation with Mr. Walker, he stated that he began working for the T-Diamond people in 1898 and was then only 12 years of age. He became a man and married and for several years lived on the ranch with his wife and son, and later lived on their farm in the Breckenridge country. Ross is really an old cow hand, however he is right in there as a wheat raiser.

To help keep them a wee bit informed they had the Herald renewed and that's that and here is wishing this good family lots of good luck and happiness.

L. C. Houghton of McCauley was named as one of the seven highest-ranking students in Draughton's Business College, Abilene, for the month of January.

Dr. and Mrs. L. S. Mgaee and their daughter, Miss Katherine, visited relatives in Tyler the past week.

Mrs. S. D. McMahon and her sister Mrs. McCauley and daughter, Mrs. Leslie Sparks were called to Kirkland, Tuesday by the serious illness of their brother, Bunyon Jarrell.

Uncommon Americans

By Elmo Scott Watson

Camera Man

WITH telephoto lens to aid them in getting long distance "shots," it's not so difficult for the camera man of today to "cover" a modern war. But it was very different when the first one went into the field to do his job.

His name was Mathew Brady, the son of Irish immigrants to New York state, who was engaged in the trade of making jewel and instrument cases when he became interested in the art of daguerreotypy soon after it was introduced into this country in 1839. The man who brought it here was S. F. B. Morse, a painter, later famous as the inventor of the telegraph.

Brady learned his first lessons from Morse and learned them so well that by 1853 he was this nation's outstanding photographer.

When the War Between the States opened he was both famous and wealthy and he could have lived a life of ease on his income. Instead he chose a career of privation and danger on the battlefields.

Brady fitted up a canvas-covered wagon to carry his equipment and to serve as his dark room in the field. In it he had to make his own emulsion to coat the large glass plates that were his negatives, for the convenient film roll had not yet been thought of.

His wagon became a familiar sight to all the armies. It plowed through muddy roads, it was ferried over rivers in constant danger of being dumped overboard and all his precious equipment lost.

But fortunately for posterity Brady came safely through all these dangers and the United States government now owns a collection of his negatives, which are priceless records of one of the greatest tragedies in our history. It is also the symbol of a tragic career. After the war was over Brady found himself in financial difficulties. His negatives were sold to pay a storage bill and in 1874 the government acquired them by paying the charges of \$2,840. Brady did not benefit by the deal but later—much later—the government did give him \$25,000 for the collection which was then valued at \$150,000. In his later years Brady lost his pre-eminence as a photographer and he died in comparative poverty and obscurity in 1896.

Saluting "All-American" Cake—Largest in World

J. Frank Grimes, president of the Independent Grocers Alliance of America puts the finishing touches on famous "All-American" cake while little Jackie Banning and her fair assistants salute at Baking Products Marketing Conference held in Hotel Knickerbocker, Chicago. The cake, weighing more than a ton, was baked state by state from a recipe chosen by 1,500,000 housewives in IGA stores throughout the country as America's favorite.

A Braniff Airways plane took off from Chicago to deliver to Governor James V. Alfred at Austin, Texas, portion of the "all-American" cake—largest cake in the world.

The cake was sent from the Baking Products Marketing Conference of the Independent Grocers' Alliance of America, held in Hotel Knickerbocker, Chicago.

Weighing more than a ton, the huge cake was baked state by state and fashioned in the shape of the United States map. Each of the 48

governors are receiving their state cake through special plane delivery.

A counterpart of the "all-American" cake was delivered to President Roosevelt, in time for his birthday.

The recipe from which the cake was baked was chosen as the favorite of 1,500,000 housewives who made known their preference in 6,000 I. G. A. stores throughout the country. The "all-American" cake is a white cake with chocolate fudge icing.

Purpose of the conference which was attended by nationally known authorities, was to study the American housewives' baking choices and to plan a nation-wide, two-week sale of home baking supplies and ready-baked products to begin March 4th.

The meeting was one of a series called by J. Frank Grimes, president of Independent Grocers' Alliance, similar to the recent Canned Foods Marketing Conference, which resulted in a record-breaking distribution of canned foods to dispose of bumper crops.

THE REST OF THE RECORD

BY JAMES V. ALLRED
Governor of Texas

An enlarged picture of the Land Commissioner's policies emerged last week from the maze of testimony developed before the Senate Investigating Committee.

Evidence was brought out to show that one group, which has been very successful with their bids before the Land Department, had secured leases for small sums of money, usually a dollar an acre, with an agreement from an oil operator to pay them three dollars an acre for part interest where they paid the state only one dollar for the whole. This group of bidders was headed by two men from Burkburnett, another from Oklahoma City, and several others from various parts of Texas.

These successful bidders got one of their own employees a job in the Land Office. This man worked in the Land Office during the time the bids were being received and granted; in fact, he was the receiving clerk. After it was all over, he quit and went back to work for the bidders. They have cut him in on a hundred thousand dollar oil deal.

One of this group of bidders admitted that they were carrying somebody on their books for a 25 per cent interest. He testified the party was a man by the name of Dawson, but the Senate committee never has been able to locate Dawson. No written record has been introduced, however, to show that this

interest was carried for Dawson.

Some of the newspapers have editorialized that perhaps after all in the award of these leases it was just a question of judgment; that is, whether high cash bids should be accepted, or bids calling for high royalty. These editorials have missed the point entirely.

In private oil business, no one ever turns down high cash payments in favor of high royalties except where it is known positively that oil is present and there is an agreement for immediate development. In nearly all the leases made by the Land Commissioner neither of these elements has existed. That is, we have not known whether or not there was oil; and, with one exception, there has been no immediate drilling and development. As pointed out before, only one well has been commenced on state land although some of these leases are over a year old. Thousands of acres have been leased in a number of counties.

It is only necessary to look at a map to see what has been done with these leases. For example, one tract which was leased for \$310 (and on which a well has never been drilled) is offset on one side by actual oil wells and circled on other sides by leases which the Land Commissioner sold for a total of \$458,000 in cash and \$371,000 in oil. The Land Commissioner turned down over a thousand dollars an acre cash for this one tract of land in favor of a bid for \$310 and three-sixteenths royalty.

Thus has the picture emerged from the testimony, with further enlargement due as the committee introduced, however, to show that this

A Chevrolet Covers a Continent

Miss Cyretta Morford, of Detroit, president of the Michigan Association of Teachers of Speech, is enthusiastic over the success of her recent experiment in touring Europe in her own car, which she shipped to France by boat. She and her party are shown before the Coliseum at Rome (upper left). At Pisa the famous Leaning Tower provides a picturesque background (upper right). Into the Alps went the sturdy Chevrolet, and it is shown (left center) parked by a Swiss customs house. The Sans Souci palace at Potsdam (lower left), former summer home of the German emperors, is modeled after the palace at Versailles. The new and the old are in striking contrast in the view of the Pantheon at lower right. The car not only helped the party to keep expenses at a minimum, but enabled it to see many points of interest "off the beaten path," Miss Morford said.

Gauges Tell What Happens in Axle Under Load

By means of this unique test on a passenger car rear axle, set up in the laboratory of the Chevrolet Gear and Axle Plant in Detroit, twelve gauges measure every possible deflection assumed by the parts in the rear axle under a given load condition. A weight is hung on the end of the drive shaft that corresponds to a maximum load on the axle during actual driving conditions. All movements or deflections of the drive shaft, pinion and ring gears, and axle shafts are then read simultaneously. Such minute and constant checking results in better mounting of bearings, that serves to prolong axle life and insure more satisfactory service. In this picture are Leo B. Olick (left) and Jack Kelly.

WOMAN'S LITERARY CLUB
OBSERVES MUSIC DAY

An especially entertaining program was enjoyed Friday afternoon by the Woman's Literary Club, when they met in the home of Mrs. Tate May on Jackson Avenue. In this program the club was favored by two local musicians, Miss Beulah Lou Burns who played a group of negro spirituals, and Mr. Forrest Greenway who talked on "Modern Music in the South" and gave two piano selections. In his talk Mr. Greenway gave an interesting resume of Southern Folk Lore music, and discussed "Swing Music," emphasizing the general effect it is having on our music of today. To illustrate these two types of music he played David Gaion's arrangement of "Turkey in the Straw," and "Deep Purple" by Peter de Rose.

Mrs. R. B. Wiar, director of the program, read a paper, "Foster of the Folk Song." Mrs. Dewey Gilman discussed "Negro Spirituals" and Mmes. Wiar, Tom Teague, Ted Armstrong and Art Carmichael sang "Swanee River."

Members responded to roll call with a Favorite Song.

WASHINGTON NEWS

FROM CONGRESSMAN
C. L. GARRETT

HERE ON BUSINESS

Bill Fletcher, of Hamlin, National Treasurer of the Rural Carriers was in our office recently while in Washington on business for his organization. We were glad to see Bill.

XX

HIGHWAY HEARING

On Monday and Tuesday of this week a large delegation from the County Judges and Commissioners Association of Texas along with members of the State Highway Department were in Washington to appear before the Roads Committee. Several of them visited our office.

XX

HOUSING

The housing or home building industry still offers the broadest opportunity for expansion. The industry if expanded would not only provide homes, but money and work for men. It is generally agreed that if the Federal Housing Act, amended to guarantee for mortgages covering up to 90 per cent of building costs on small homes, does not appeal to lenders, or prospective builders, the government will take drastic action to start the industry going. Much consideration is given to an agency to be created like the Home Owners Loan Corporation that would be supplied by the government, with capital and finance home construction in a low interest rate. Money would thus be put to work on a broad scale in a short time.

XX

ASSISTANCE TO NEEDY

The objectives of the Social Security program was to banish the dread of poorhouses, protect helpless children, and give aid to the blind. According to the Social Security Board, such objectives are being attained. They conclude that the large part of those receiving assistance under the old age program have no other form of money income. Families receiving aid for dependent children are, mostly homes broken by the death or absence of the father. Last, the aid to the blind is provided a great deal to individuals suffering from old age. Some 2,109,000 are being helped in these three ways by the Social Security program.

XX

CREDIT MACHINERY

Small business needs some new credit machinery to take care of the sound capital needs of operating industry not in the big business class. Private individuals, under a new plan being considered, could buy participation in the industrial lending business, and purchase certificates which would be backed by a government guarantee.

ALIENS TO BE ELIMINATED

A provision to stop the expenditure of government appropriation funds for the hire of aliens appeared in two of the appropriation bills that the House passed this session. It is likely that such provisions will be extended in future government appropriation bills, with probably a few exceptions.

SOME NERVE

Here is something I want you to read. A few days ago James H. R. Cromwell, husband of Doris Duke, "the world's richest girl," appeared before the House Ways and Means Committee with a tax reform plan of his own. His plan was to do away with income tax and inheritance taxes (on the rich) and substitute a sales tax. At this hearing he stated that "my wife and I have \$50,000,000 in tax exempt securities on which we pay no taxes." It is a shame that a great Nation lets a thing like that exist.

INSURED BANK DEPOSITS

The Federal Deposit Insurance Corporation reports that of 283,000 depositors in insured banks which were liquidated or merged up to December 21, 1937, only 673, or less than one-half of one per cent, were not fully protected by Federal Deposit Insurance.

TRADEMARK REGISTER AVAILABLE

A trade mark may be registered in the Patent Office, by any person,

firm, corporation, or association domiciled in the United States or in any foreign country according to a similar privilege to citizens of the U. S., if the applicant proves ownership of the trade mark, pays the required fee and follows regulations of the Patent Office. \$15 is the original application fee. A pamphlet giving the U. S. Statutes and Patent Office rules relating to trade mark registration is available by writing to my office.

MCCAULEY MATTERS

By JOHN P. HARDESTY

The following named Hamlin friends have made appreciative gifts toward the building of the Baptist pastor's home: Chunk McCurdy, Farmers Co-Op Gin Co., Morgan Bros, Britton gin, Hamlin Hatchery, Smith Dry Goods Co., Hassen Company, Inc., S. D. McMahon, Bryant-Link Co., Dr. A. L. McElroy, Tom Holman, Rockwell Bros. and Co., Hamlin Hospital, Otis Miller, district attorney, Abilene, Lawlis Tailor Shop, Home Lumber Co., J. C. Harwell, M. T. York Stores, Mrs. L. L. Cowan, H. O. Cassle.

These, together with those whose names have already been published in this column, make a total of 42 givers among Hamlin people. Others have signified their intentions to help. Our Baptist congregation are truly grateful for this very material assistance.

Miss Wileta Smith, of Lubbock, a graduate of Texas Technological College, has been elected to teach in the McCauley high school, succeeding Miss Nell Riney, who resigned in order to accept a position in the Panhandle, Texas, public school. Our community regrets to give up Miss Riney but are glad to welcome Miss Smith to our school and community. She comes highly recommended by her college and other prominent citizens of Lubbock.

Our community has lost another of her pioneer citizens in the passing of Mr. G. W. Moss, who died at his farm home some three miles south-east of McCauley Sunday morning at 5 o'clock. Mr. Moss was born in Arkansas June 8, 1865. He was married to Miss Manora Tennessee Rosenbaum at Fulton, Ark., Dec. 24, 1889. The family moved to the present family home in 1901. Survivors are: The widow and eight children, namely, William of Meadow, Texas; Thomas, Clarence, Mrs. Pearl Curry and Mrs. Mary Barnes, all of McCauley; Winton of Decatur; Arthur Moss of Lamesa, and Mrs. Ola E. Goldsmith, Los Angeles, Calif. Two children died in youth, Marcus and Edna. Twenty-four grandchildren and one great grandchild also survive. All the surviving children and grandchildren were present at the last except two. One sister to Mr. Moss also survives, Mrs. E. B. Bryant, of Stanton, who was also present. One son-in-law, Mr. Goldsmith, was not present for the funeral, which was held from the Baptist Church, conducted by Pastor John P. Hardesty and Rev. J. R. Bateman of the local Methodist Church, Monday afternoon, Feb. 7, at 3:30. Barrow Funeral Home of Hamlin was in charge. The body was laid to rest in the family plot in McCauley cemetery. Mr. Moss was a good citizen and a long-time member of the Baptist Church. He contributed much in his quiet, modest and steadfast character to the welfare of his community, and will be greatly missed from among us.

Out of town relatives of the family who attended the funeral services were A. C. Rosenbaum, of Post, brother to Mrs. Moss, and three sisters of Mrs. Moss, Mrs. Dora Dewitt, Fort Worth; Mrs. Annie Sullivan, Morton, and Mrs. W. D. Duke, Clovis, N. M. Fred Rosenbaum of McCauley is also a brother to Mrs. Moss.

The following served as pall bearers: W. J. Madden, Levi McCollum, Carroll Lee, Wm. Rogers, A. A. Callaway, F. L. Rector and Dick Cypert.

We regret to report Mrs. Edwin Johnson and Miss Minta Milsap on the sick list. Mrs. A. M. Evans has been suffering from a severe attack of rheumatism. Tom Akins is recovering from an infected knee, caused from a thorn.

Presiding Elder Bickley preached at the Methodist Church Sunday night, after which he held quarterly conference for the McCauley charge. Representatives from Boyds Chapel and Neinda, members of the charge, were present. Several members of the Methodist congregation, including Pastor Bateman, attended the Methodist Pastors' Retreat at Anson last week.

Seven intermediates from the Baptist congregation attended a rally of Fisher County Baptist Association Monday evening at North Roby church. McCauley won the efficiency banner, while the attendance banner went to Rotan. The next meeting goes to Roby church, first Monday night in March.

Miss Pauline Harrell, a former teacher in McCauley school, but now connected with the Hamlin school, was a visitor with the F. L. Rectors over the week end.

Mrs. Joe Miers has returned from the Hamlin Hospital where she has been under medical treatment.

The Emmett Akins from Abilene visited with the Luther Akins Sunday.

The S. E. Miers visited relatives and friends in the Lamesa section Sunday.

The faculty, joined by the seniors and juniors, of the local high school, gave a farewell reception and party to honor Miss Nell Riney, who resigned her position as teacher of English in the school to accept a position in the public school at Panhandle, Texas, on Wednesday evening of last week. Games furnish-

ed entertainment followed by refreshments. The following attended: Hettie Logan Clay, Ima Jean Schulze, Kenna Rector, Vera Tate, Mrs. H. P. Powers, Thelma Dean, Geraldine Henderson, Velma and Laura Cook, Corrine Akins, Ruby Shira, Nadine Land, Sis George, Melvin Courtney, V. W. Jackson, H. P. Powers, D. L. Smith, Owen Mason, Ivan Mustain, Jack Maberry, William Shira, Donald Hendrickson and Buck Jones. Mr. and Mrs. D. L. Smith were host and hostess.

Following is the program of the Baptist Young Peoples Union rally of Fisher County Association, to be given at Gannon, Friday night, Feb. 11, at 7:30.

CORRECTION

In the McCauley news last week it was stated George Darden was constable of precinct No. 2 of Fisher County, BUT George resigned Jan. 28 to take the position of runner, temporarily.

John Wishert was appointed Jan. 28 to fill out Mr. Darden's unexpired term. This correction is for Mr. Darden and his new place of service.

Ted Bledsoe is at home from Lamesa, where he assisted in the H. Britton Bonded Warehouse. Oliver Jones would have been back Hamlin too, had he not happened to get his car burned last Friday. He will be here as soon as he can get insurance adjustments.

It is not often a Mexican takes the Herald, but there are some very wide-awake men who keep up with the affairs of Hamlin through the Herald. The newest Mexican reader is Joe S. Rivera. Thank you Joe.
